HPIX LOSS CONTROL

HPIX provides the following risk reduction services to ASC clients at no extra charge.

On Site Risk Assessment - Our ASC experienced risk analyst will visit each ASC location and provide a comprehensive enterprise risk assessment, including review of clinical care, facility safety, administrative risk management and defensibility of documentation. Additional review of regulatory compliance is available.

HPIX believes in proactive risk reduction through education and industry leading risk assessment processes. Our comprehensive ambulatory care center risk assessment is designed to identify risk and educate staff on how to avoid potential claims. We provide independent analysis, user friendly reports with CME credits and leading edge results.

ELIGIBLE RISKS:

- Ambulatory Surgery Centers
- Imaging Centers
- Medical Laboratories
- Physical/Occupational Rehabilitation Centers
- Single and Multi Specialty Centers
- Dialysis Centers

UNIQUE BENEFITS:

- Associated/Employed Physicians who meet underwriting standards and desire coverage are written on separate policies in PA. Prior acts coverage is available.
- Associated/Employed Physicians who meet underwriting standards and desire coverage are written on the same policy as the ASC - NJ only.
- Available credits based on the number of physicians insured with HPIX.
- HPIX is a licensed and admitted carrier in PA, NJ, MD & DE.

COVERAGE FORMS:

- PA - Claims Made
- NJ - Claims Made or Claims Made Plus with prepaid tail
- No deductible - Coverage provided on a first dollar basis
- Provides "tail" coverage with extended reporting of unlimited duration

EARLY REPORTING/COORDINATED DEFENSE:

- HPIX encourages insureds to report incidents which they believe could result in a claim. Early intervention allows for better claims management.
- When HPIX provides coverage for both the Physicians and the ASC there is an added benefit when a claim arises. HPIX coordinates defense which allows for better claims management and a reduction in claims costs.
